

Last revised April 2009

Bibliography
Diversity and Diversity Index
(72 entries)

1. Fisher, R.A., Corbert, A.S. and Williams, C.B. 1943. The relation between the number of species and the number of individuals in a random sample of an animal population. *Journal of Animal Ecology* 12(1): 42 – 58
2. Good, I.J. 1953. The population frequencies of species and the estimation of population parameters. *Biometrika* 40: 237 - 264
3. Holgate, P. 1969. Species frequency distributions. *Biometrika* 56(3): 651 - 660
4. Pielou, E.C. 1969. Ecological diversity and its measurement. In *An Introduction to Mathematical Ecology*. Wiley Interscience, New York. 286p
5. Bowman, K.O. *etal* 1971. Comments on the distribution of indices of diversity. *Statistical Ecology* 3: 315 - 366
6. Hurlbert, S.H. 1971. The concept of species diversity: a critique and alternative parameters. *Ecology* 52(4): 577-586
7. Peet, R.K. 1974. The measurement of species diversity. *Annual Review of Ecology and Systematics* 5: 285 - 307
8. Pielou, E.C. 1975. Indices of Diversity and evenness. In *Ecological diversity*. Wiley Interscience, NY.165p
9. Routledge, R.D. 1977. On whittaker's components of diversity. *Ecology* 58: 1120 – 1127
10. Zahl, S. 1977. Jackknifing and index of diversity. *Ecology* 58: 907 - 913
11. Kempton, R.A. 1979. The structure of species abundance and measurement of diversity. *Biometrics* 35: 307 – 321
12. Ricklefs, R.E. and Lau, M. 1980. Bias and dispersion of overlap indices: results of some Monte Carlo simulations. *Ecology* 61(5): 1019 – 1024
13. Routledge, R.D. 1980. Bias estimating the diversity of large, uncensused communities. *Ecology* 61(2): 276 – 281
14. Coleman, B.D. *etal*. 1982. Randomness, area, and species richness. *Ecology* 63(4): 1121 – 1133.
15. Patil, G.P and Tailie, C. 1982. Diversity as a concept and its measurement. *Journal of*

American Statistical Association 77(379): 548-567

16. Conde, L.F., Swindel, B.F. and Smith, J.E. 1983. Plant species cover, frequency, and biomass: early responses to clearcutting, burning, windrowing, discing, and bedding in *Pinnus elliotii* flatwoods. *Forest Ecology and Management* 6: 319 – 331
17. Conde, L.F., Swindel, B.F. and Smith, J.E. 1983. Plant species cover, frequency, and biomass: early responses to clearcutting, chopping, and bedding in *Pinnus elliotii* flatwoods. *Forest Ecology and Management* 6: 307 – 317
18. Tong, Y.L. 1983. Some distribution properties of the sample species-diversity indices and their applications. *Biometrics* 39: 999 – 1008
19. Swindel, B.F., Conde, L.F. and Smith, J.E. 1984. Species diversity: concept, measurement, and observed response to clearcutting and site-preparation. *Forest Ecology and Management* 8: 11-22
20. Heltshe, J.F. and Forrester, N.E. 1985. Statistical evaluation of the Jackknife estimate of diversity when using quadrat samples. *Ecology* 66(1): 107 - 111
21. Pacala, S.W. and Silander, J.A. Jr. 1985. Neighborhood models of plant population dynamics. I. Single-species models of annuals. *The American Naturalist* 125(3): 385 - 411
22. Swindel, B.F., Conde, L.F. and Smith, J.E. 1987. Index-free diversity orderings: concept, measurement, and observed response to clearcutting and site-preparation. *Forest Ecology and Management* 20: 195 – 208
23. Swindel, B.F. and Grosenbaugh, L.R. 1988. Species diversity in young Douglas-Fir plantations compared to old growth. *Forest Ecology and Management* 23: 227 – 231
24. Noss, R.F. 1990. Indicators for monitoring biodiversity: a hierarchical approach. *Conservation Biology* 4(4): 355 - 364
25. Szaro, R.C. and King, R.M. 1990. Sampling intensity and species richness: effects on delineating southwestern riparian plant communities. *Forest Ecology and Management* 33/34: 335 – 349
26. Szaro, R.C. 1990. Southwestern riparian plant communities: site characteristics, tree species distributions, and size-class structures. *Forest Ecology and Management* 33/34: 315 - 334
27. Gove, J.H. *etal* . 1991. Maximizing the diameter class diversity of uneven-aged Northern hardwood stand. In Proceedings of the 1991 symposium on systems analysis in forest resources (Buford, M.A. ed.), March 3-6, 1991, Charleston, South Carolina.
28. Gove, J.H., Patil, G.P. and Taillie, C. 1991. A mathematical programming model for maintaining structural diversity in uneven-aged forest stands with implications to other

formulation. *Mathematical programming*.....
