

LAST REVISED: DECEMBER 2007

**ECOLOGICAL REGRESSION BIBLIOGRAPHY
1933-Present**

1. Ross, F.A. (1933) "Ecology & the Statistical Method." *The American Journal of Sociology*, 38(4): 507-522.
2. Robinson, W. S. (1950) "Ecological correlation and the behavior of individuals" *American Sociological Review*, 15(3): 351-357.
3. Goodman, L.A. (1953) "Ecological Regressions and Behavior of Individuals." *American Sociological Review*, 18(6): 663-664.
4. Goodman, L.A. (1959) "Some Alternatives to Ecological Correlation." *American Journal of Sociology*, 64(6): 610-625.
5. Cramer, J. S. (1964). "Efficient grouping, regression and correlation in Engel curve analysis." *Journal of the American Statistical Association* 54: 233-250.
6. Shively, W.P. (1969) "'Ecological' Inference: The Use of Aggregate Data to Study Individuals." *The American Political Science Review*, 63(4): 1183-1196.
7. Hanushek, E.A., J.E. Jackson, & J.F. Kain. (1974) "Model Specification, Use of Aggregate Data, and the Ecological Correlation Fallacy." *Political Methodology*, 1(1): 89-107.
8. Ansolabehere, S. & D. Rivers. (1992) "Using Aggregate Data to Correct for Nonresponse & Misreporting in Surveys." *Presented at the annual meeting of the Political Methodology Group, Massachusetts*, p. 1-17.
9. Greenland, S. & J. Robins. (1994) "Invited Commentary: Ecological Studies—Biases, Misconceptions, & Counterexamples." *American Journal of Epidemiology*, 139(8): 747-760.
10. Ansolabehere, S. & D. Rivers. (1995) "Bias in Ecological Regression Estimates."
11. Cleave, N., P.J. Brown, & C.D. Payne. (1995) "Evaluation of Methods for Ecological Inference." *J. R. Statist. Soc. A*, 158(1): 55-72.
12. Cressie, N. (1996) "Change of support and the modifiable areal unit problem" *Geographical Systems*, 3: 159-180.
13. Holt, D., D.G. Steel, M. Tranmer, & N. Wrigley. (1996) "Aggregation and Ecological Effects in Geographically Based Data." *Geographical Analysis*, 28(3): 244-261.
14. Steel, D.G., D. Holt, & M. Tranmer. (1996) "Making Unit-Level Inferences From Aggregated Data." *Survey Methodology*, 22(1): 3-15.

15. King, G. (1997) "A Solution to the Ecological Inference Problem: Reconstructing Individual Behavior from Aggregate Data." Princeton University Press, Princeton, New Jersey, 291 p.
16. Tranmer, M. & D.G. Steel. (1998) "Using Census Data to Investigate the Causes of the Ecological Fallacy." *Environment & Planning A*, 30(5): 817-831.
17. Goldsmith, J.R. (1999) "The Residential Radon-Lung Cancer Association in U.S. Counties: A Commentary." *Health Physics*, 76(5): 553-557.
18. King, G., O. Rosen, and M. A. Tanner. (1999) "Binomial-beta hierarchical models for ecological inference." *Sociological Methods & Research*, 28(1)61-90.
19. Gelman, A., S. Ansolabehere, P.N. Price, D.K. Park, & L.C. Minnite. (2000) "Models, Assumptions, & Model Checking in Ecological Regressions." *Royal Statistical Society Conference on the Analysis and Interpretation of Disease Clusters and Ecological Studies, London*, 16-17 December 1999.
20. Gotway, C.A. & L.J. Young. (2002) "Combining Incompatible Spatial Data." *Journal of the American Statistical Association*, 97(458): 632-648.
21. Lancaster, G. & M. Green. (2002) "Deprivation, Ill-health and the Ecological Fallacy." *J. R. Statist. Soc. A*, 165(2): 263-278.
22. Wakefield, J. (2003) "Sensitivity Analyses for Ecological Regression." *Biometrics*, 59(3): 9-17.
23. Salway, R. & J. Wakefield (2005) "Sources of bias in ecological studies." *Environmental and Ecological Statistics* 12: 321-347.
24. Lancaster, G. A., < Green, & S. Lane. (2006) "Reducing bias in ecological studies: an evaluation of different methodologies." *Journal of the Royal Statistical Society, Series A*. 169(4) 681-700.
