

Last revised: December 2008

Mixed Bibliographies

(734 entries)

Books:

Swamy, P. A. V. B. 1971. Statistical Inference in Random Coefficient Regression Models. Lecture Notes in Operations Research and Mathematical Systems (M. Beckmann and H. P. Künzi Zürich) 209 pp.

Henderson, C.R. 1984. Applications of Linear Models in Animal Breeding. University of Guelph.

Malley, J. D. 1986. Optimal Unbiased Estimation of Variance Components. Lecture Notes in Statistics, #39, Springer-Verlag.

Hsiao, C. 1986. Analysis of Panel Data. Econometric Society Monographs No. 11. Cambridge: Cambridge University Press.

Malley, J. D. 1986. Optimal Unbiased Estimation of Variance Components. (in Lecture Notes in Statistics, #139) Springer-Verlag.

Dielman, T. E. 1988. Pooled Cross-sectional and Time Series Data Analysis. New York: Marcel Dekker, Inc.

Anon. 1989. Applications of Mixed Models in Agriculture and Related Disciplines. Southern Cooperative Series Bulletin 343. Louisiana Agricultural Experiment Station, Baton Rouge.

Jones, R.H. 1993. Longitudinal Data with Serial Correlation: A State-space Approach. London: Chapman & Hall.

Lindsey, J.K. 1993. Models for Repeated Measurements. Oxford: Clarendon Press.

Longford, N.T. 1993. Random Coefficient Models. Oxford: Clarendon Press.

Diggle, P., Liang, K-Y & Scott Zeger. 1994. Analysis of Longitudinal Data. Oxford: Clarendon Press.

Davidian, M. & D. Giltinan. 1995. Nonlinear Models for Repeated Measurement Data. London: Chapman & Hall.

Littell, R. C., G. A. Milliken, W. W. Stroup, & R. D. Wolfinger. 1996. SAS System for Mixed Models. Cary, NC: SAS Institute, Inc.

Gregoire, T. G., D. R. Brillinger, P. J. Diggle, E. Russek-Cohen, W. G. Warren, & R. D. Wolfinger. (eds). 1997. Modelling Longitudinal and Spatially Correlated Data: Methods, Applications, and Future Directions. (Lecture Notes in Statistics, #122) Springer-Verlag.

Verbeke, G. & G. Molenberghs (eds). 1997. Linear Mixed Models in Practice (in: Lecture Notes in Statistics, #126) Springer-Verlag

Vonesh, E. & V. Chinchilli. 1997. Linear and Nonlinear Models for the Analysis of Repeated Measurements. New York: Marcel Dekker Inc.

McCulloch, C. E. & S. R. Searle. 2001. Generalized, Linear, and Mixed Models. New York: Wiley.

Schabenberger, O. & F. Pierce. 2002. Contemporary Statistical Models for the Plant and Soil Sciences. Boca Raton: CRC Press.

Diggle, P., Heagarty, P. Liang, K-Y & S. Zeger. 2002. Analysis of Longitudinal Data (2nd ed.). Oxford: Clarendon Press.

Fitzmaurice, G., N. Laird & J. Ware. 2004. Applied Longitudinal Analysis. Wiley-Interscience.

Laird, N. 2004. Analysis of longitudinal and cluster-correlated data. NSF-CBMS Regional Conference Series in Probability and Statistics, Volume 8. Published by Institute of Mathematical Statistics and the American Statistical Association.

Fitzmaurice, G. *etal* (eds). 2008. Longitudinal Data Analysis. Handbooks of Modern Statistical Methods. CRC Press.

.....Multivariate Multilevel Data. In Models for Repeated Measures Data. Pp. 138 – 141.

Journals:

Statistical neerlandica (2004) Journal of the Netherlands Society for Statistics and Operations Research. Volume 58(2): 125 - 254. Blackwell Publishing

Dissertations:

Gregoire, T. G. 1985. Generalized Error Structure for Forestry Yield Models Fitted with Permanent Plot Data. Doctoral Dissertation submitted to Yale University, New Haven, CT, USA.

Eriksson, M. 1989. Integrating Forest Growth and Dendrochronological Studies. Doctoral Dissertation submitted to the University of Minnesota, St. Paul, MN, USA

Hurtado, G. I. 1993. Detection of Influential Observations in Linear Mixed Models. Doctoral Dissertation submitted to North Carolina State University, Raleigh, NC, USA.

Quiroga, R. R. 1993. Estimation of Nonlinear Mixed Effects and Random Coefficient Models. Doctoral Dissertation submitted to North Carolina State University, Raleigh, NC, USA 163 pp.

Van den Doel, I. T. 1994. Dynamics in Cross-Section and Panel Data Models. Tinbergen Institute, Research Series No. 69. 183 pp.

Visser, H. 1994. Regression Models with Time-Varying Parameters: Applications in the Environmental Sciences. Academisch Proefschrift submitted to the Universiteit van Amsterdam.

Candy, S. G. 1999. Predictive Models for Integrated Pest Management of the Leaf Beetle *Chrysophtharta bimaculata* in *Eucalyptus nitens* Plantations in Tasmania. Doctoral Dissertation submitted to University of Tasmania, Hobart, Tasmania, Australia.

Eerikainen, K. 2001. Modelling Stand Development on *Pinus kesiya* in Southeast Africa. Doctoral Dissertation submitted to the University of Joensuu, Joensuu, Finland.

Mehtätalo, L. 2004. Predicting Stand Characteristics Using Limited Measurements. Doctoral Dissertation submitted to the University of Joensuu, Joensuu, Finland.

Wang, L. 2004. Parameter estimation for mixtures of generalized linear mixed-effects models. A Dissertation submitted to the Graduate Faculty of the University of Georgia in Partial fulfillment of the requirements for the degree of Doctor of Philosophy, Athens, Georgia. 129 pp.
